Recalibrate for Impact® is more than just an online course with optional coaching. It's a proven path to freeing up energy to create new possibilities faster and a more impactful life, anchored in what feeds your soul.

BUSINESS CHALLENGE: Many high achieving professionals today feel exhausted, trapped and uninspired. Despite all the results they have created in their careers, they can't help but feel they are at a crossroads, wanting to see and act on new possibilities but instead feeling drained, depleted and constrained by existing systems. And with the world changing at such a rapid pace, they find themselves struggling to think bigger and translate those ideas into actual momentum forward. They want to bring greater meaningful impact to their leadership and life, but don't have the roadmap to get there. As a result, organizations miss out on innovative solutions to emerging challenges.

LIMITATIONS OF TRADITIONAL APPROACHES: The crisis we face in an increasing number of depleted, exhausted professionals is symptomatic of a larger lack of meaning and purpose many feel in a highly complex, technologically-driven global economy. This is not merely a personal crisis of meaning, nor it is a business impact question - it is both.

Most approaches to helping professionals are either deep, personal development or skill-building approaches to uncover personal meaning, or business innovation labs that yield creative new ways to produce value. While these approaches have value, they can take a long time to yield results, and often neglect the soulful excavation and collective energy activation processes necessary to transform ideas into action.

OUR UNIQUE SOLUTION: Recalibrate for Impact® is an online, video-based program with group coaching. It is a proven process to transform and accelerate impact in the midst of ongoing change that combines deeply human, soul-level excavation with business impact experimentation. It helps high performing professionals:

- **Attune** strategically to what is shifting in the landscape and spot new possibilities amidst constraint..
- **Align** with their core essence and unique purpose to expand into more impactful leadership.
- **Activate** collective energy and expand influence to bring possibilities into reality in a tangible, digestible, and practical manner.

Our unique Clarity, Congruence and Courage® process embedded within Recalibrate for Impact® offers simple yet profound practices that hold the power to transmute the natural human fear of unprecedented change into positive momentum forward.

BOTTOM LINE: Recalibrate for Impact® is more than just an accelerated online learning and group coaching experience. It's a proven, rapid path to freeing up energy to become a creator of new possibilities and leader of meaningful impact rather than a victim of changed circumstance.
